

WEATHER POSTPONEMENTS

Here are the procedures for weather postponements

Any Varsity Games: If there is no school, all games and practices are cancelled.

If there is/was school, the home school AC is responsible to make the decision. This decision should be made in conjunction with the visiting team AC, but final decision is the responsibility of the home school AC. Postponement decisions must be communicated to Bob Gunning (860-882-2887) no later than 3 hours before the start time of the first game.

All League JV Games: The decision to postpone is made by Gary Leclerc the League Director. This decision will be made in consultation with the AC's of the hosting schools. If there is a reason why we cannot play at your gym (parking lot not plowed, no heat, etc) you must contact Gary by the cutoff times listed below.

Saturday games. The decision is made NOT LATER THAN 7 AM.

Sunday games: The decision to postponement is made NOT LATER THAN 11:00 AM

The postponement notice will be broadcast on WTIC TV, and also listed on the front page of the League website. Gary will contact Bob Gunning who will notify the officials.

As AC's, you WILL NOT get a call regarding postponements. Please check WTIC or the website for any postponement info. As conditions vary throughout the area, the decision to play or postpone is made based on the info available from the host schools. It is always the decision of every AC to make the final determination of whether their teams should travel to the game site. If the games are being played however, no reschedule of games for teams choosing not to participate will occur.
